CHAPTER-XVII

OTHER

The existing Schedule **No.57** of storage charges is in force with effect from **1-07-2017**. However, there has been continuous rise in the prices such as on account of establishment, administrative costs, cost of construction of godowns and also in addition increase in insurance premium due to increase in the values of stocks stored in the warehouses. Therefore, the Corporation has taken decision to increase the rates wherever necessary and simultaneously has tried to keep the storage charges at very reasonable rates for certain other commodities as per shown in the Schedule **No.57** of Storage Charges.
