No: MSWC/BD/Schedule No.60/144 /2026

Date: -27.01.2026

### Sub: -Schedule No.60 of Warehousing Charges Effective From 01/02/2026.

The Schedule No.60 of Warehousing Charges is effective from 01/02/2026. The previous schedule No.59 was applicable from 16/10/2024. Because of rise in the expenses on establishment, preservation, and other miscellaneous expenses, the Corporation has taken a decision to revise the schedule of storage charges with effect from 01/02/2026. The storage schedule thus revised hence forth will be known as "Schedule No.60 of warehousing charges". The schedule reflects the applicable storage charges and does not include goods and service tax. Goods and Service Tax (GST) would be levied on basic storage charges and on ad-valorem charges as per the applicability.

The Schedule No.60 is applicable for the goods accepted with effect from **01/02/2026**. The Schedule No.60 will be applicable for the stocks accepted prior to **01/02/2026** w.e.f. **01/02/2026**. If any depositor disputes this arrangement and the revised schedule is not acceptable to him even w.e.f. **01/02/2026**, then (s)he shall have to withdraw the stocks before 31/01/2026 otherwise (s)he shall have to pay the storage charges as per Schedule No.60 w.e.f. **01/02/2026**.

1. Schedule No. 60 applicable from 01/02/2026 would be as follows.

Sr.No.	The basic rates of storage	Schedule table no.
(i)	For general custom	<b>Schedule No. 60 A (a) to 60 A (f)</b>
(ii)	Storage charges on reservation basis for fertilizer stock	<b>Schedule No.60 - B</b>
(iii)	Storage charges on reservation basis for cement stock	<b>Schedule No.60 - C</b>
(iv)	storage charges per sq.ft. per month for the space reserved on floor area basis. Irrespective of the weight (Except bonded warehouses)	<b>Schedule No.60 – D.</b>
(v)	storage charges per sq. feet per month on lock and key basis..	<b>Schedule No. 60- E</b>
(vi)	storage charges for the open space(other than bonded area) shall be charged for storage of nonperishable goods only. (In these cases, insurance of goods will be done by the depositors).	<b>Schedule No. 60- F</b>
(vii)	Storage charges for storage of sugar	<b>Schedule No. 60 – G</b>
(viii)	Storage charges and Ad Valorem charges of bonded warehouses	<b>Schedule No. 60 – H</b>

(ix)	Charges for installation of Mobile/Telecom towers and installation of Advertisement hoarding in warehouse complexes on commercial basis	<b>Schedule No. 60 – I</b>
------	---	----------------------------

**NOTE:** 1) No Ad-valorem charges for food grains and cereals, as per **Schedule No.60 A(a) and 60 A(b)**. In addition to the basic storage charges indicated above ad-valorem charges shall be charged extra in all cases in **Schedule No.60 A (c)** (i.e. in respect of all goods/commodities stored in any of the warehouse) as per para below.

2) In case of tiny depositors, if total storage charges work out to be less than Rs.50/- then the minimum warehousing charges to be recovered will be Rs.50/- per transaction irrespective of No of bags, type of commodity, period of storage etc.

#### **A) Rates For Ad-Valorem Charge**

**Ad-valorem charges include the cost of overheads of supervision charges, insurance premium and various type of miscellaneous expenditure.**

Ad-valorem charges are to be levied on all the goods stored in any warehouse except the cotton bales, fertilizer and the goods stored in general open sq.ft. area (other than bonded open area) and on goods kept in godowns which are taken on lock and key basis.

**Rates of Ad valorem charges shall be as follows:**

1.	Agricultural Produce and their derivatives used for human consumption, such as commodities covered under <b>Schedule group, Schedule No.60 A(a) and Schedule No.60 A(b) are not applicable for Ad valorem charges.</b> <b>Add Ad Valorem charges are applicable for all Agricultural Produce Commodities covered under schedule group, Schedule No.60 A(c)</b>	<b>6 paise per Rs.100 value per calendar month or part thereof</b>
2.	Non-hazardous goods (other than that covered at Sr.No. 1 above) such as – Cement, common salt, Graphite powder, Milk powder, Bran of Rice/ Wheat, Cattle feed, Oil seed cakes, LDPE Granules, Various types of non-hazardous Industrial goods	<b>7 paise per Rs.100 value per calendar month or part thereof</b>
3.	Hazardous goods	<b>10 paise per Rs.100 value per calendar month or part thereof</b>

#### **B) Factors to be considered for determining the value of goods for the purpose of Ad- valorem charges.**

(i) In case of non-branded / non-MRP items, normally the invoice submitted by the depositor for the goods stored in the warehouses shall be the base for determining the value of the goods. However, if the depositor is small farmer or trader and is not able to produce the invoice, then the valuation of the stocks can be done on the basis of latest APMC rates available in respect of that good and further that if that item is not in the list of that APMC, then on the basis of their market rates which are published in the newspapers.

Further, if the Storage Superintendent is of the view that the valuation shown in the invoice is much more than the market rates prevailing in the APMC(as regards agricultural goods) or in the general market (as regards industrial/commercial goods), then he can restrict the valuation of the goods commensurate with the rate of that good prevailing in the market and while doing so keep the proof of that market rates in the record, e.g. newspaper cutting / APMC's statement or any other dependable proof such as company/manufacturer's/authorized dealer's rates catalogues.

(ii) In case of branded/MRP items also, normally the invoice produced by the depositor should be the base for determining the value of goods stored. However, if the value shown in the invoice is more than 90% of the MRP written on the goods, then the valuation may be restricted up to 90% of the MRP. Further, if the valuation shown in the invoice is less than 50% of the MRP written on the goods, then for the purpose of calculation of ad-valorem charges 50% of the MRP should be taken as the base. This also means, if the valuation shown in the invoice false between 50% to 90% of the MRP, then the valuation shown in the invoice may be accepted for the purpose of calculation of ad-valorem charges.

- 2) A) The rates for **initial fumigation charges** is **Rs.65/-** per M.T. and for **outside fumigation charges** is **Rs.75/-** per M.T. with effect from **01/02/2026**.  
B) The Corporation preserves the stock scientifically. For the primary produce goods packed in plastic coated /or plastic bag, the Corporation does not accept preservation guarantee of such goods, as it is not possible to fumigate such goods.
- 3) The Goods and service tax (GST)will be charged extra on storage/fumigation charges wherever applicable as per Govt. rates.
- 4) The claims of losses, if any will be settled at par with the claim amount settled by the insurance company.

#### **4A) Reservation For General Custom:**

In the case of general reservation and excess storage charges in general reservation, the rate for 100 KG and above for more than 100 bags mentioned as per the category of warehouse irrespective of bag size will be applicable.

The minimum reservation period shall ordinarily be for not less than 3 months. However, for the reservation below 3 months, the proposed rate shall be as follows:

- a) For 2 months reservation, rate of basic storage charge shall be 5% more than schedule rate and this rate will continue even if the depositor to keep goods beyond this period with or without reservation.
- b) For 1 months reservation, rate of basic storage charge shall be 7.5% more than schedule rate and this rate will continue even if the depositor to keep goods beyond this period with or without reservation.
- c) No cancellation of reservation will be allowed, if the reservation is for 2 months or of less period.
- d) The reservation for less than 3 months shall not be granted more than 7 days in advance from the actual date of start of reservation.

**[The above para is not applicable for Schedule No.60 A(f) as there is no separate reservation rate for cotton bales.]**

**4B) Reservation For 3 Months And More:**

- a) The depositor will have to pay Security Deposit equivalent of one month storage charges in advance according to the area/tonnage of reservation and the period of reservation. This Security Deposit will be refunded only after the expiry of the period of reservation and after settling all the claims.
- b) Further in all such reservation cases; the depositor shall have to pay every month the monthly basic storage charges in advance within 7 days period of the start of the month and will have to pay ad-valorem charges at the end of the month. In case he does not pay the storage charges as above, the reservation shall be liable for cancellation. In case of reservation made for a period of more than 3 months, the depositor may cancel the same by giving 1 months notice. However, in such a case the cancellation will be made effective after 30 days from the date of receipt of notice.
- c) This Schedule No.60 shall be effective for all reservations made effective from 01/02/2026. However, the reservations for which agreement have already been made prior to 01/02/2026 will be governed by old Schedule No.59 or as per the agreement made.

**4C)- Reservation by Tiny Depositors –**

Reservation of storage space by tiny depositor will. come into force only on confirmation from the competent officer of the Corporation (Center Incharge, Regional Head, Dy. General Manager (BD&QC) as the case may be) & on signing of the duplicate copy of the confirmation letter by the depositor or his authorized representative in token of accepting the terms and conditions. The Centre Incharge is authorized to grant reservation upto 100 M.T./300 Sq.Ft. on collection of storage charges in advance and for a minimum period of one month. Further that all provisions of para 4A shall apply in these cases also.

- 1) Computation of storage charges for the excess stock stored over & above the reservation of space will be done on the basis of maximum opening stock on any day during the calendar month minus the reserved space and will be charged for the whole month accordingly.
- 2) Computation of storage charges for the stock remaining in storage after cancellation of reservation or storage charges for stocks remaining in storage without reservation (i.e. on actual basis) fresh receipt will not be accepted in actual stock. New receipt will be charged as per general custom Schedule rate.
- 3) Goods & Service Tax (GST) or any other tax will be levied as per prevailing rates.

4D) General custom storage charges rate as per bag equivalent and no of bags will be applicable for the actual stock stored on actual basis.

4E) The reservation confirmed by the MSWC authorities can be extended / reduced / increased only if the depositor informs in writing 15 days in advance for the proposed change. If the reservation is not extended, New Receipt stock will be charged as per the general custom Schedule rate.

The MSWC after considering its business position at that moment of time, may or may not accept the proposed change. However, in case of agreement already executed with a depositor for a period exceeding one year, the Terms & Conditions for the said agreement will be continued to operate.

**5) Handling & Transportation Payment :**

a) All the depositors (all the Fertilizer Comp., Private Comp., who are taking godowns on sq.ft. basis and other depositors) have to pay Handling & Transportation bills within 30 days after receipt of the bills. If payment is not made within 30 days, then the delayed payment charges will be charged @ Rs.1.5% per month in the subsequent bill. The payment of handling general customs has to be paid by respective depositor.

**6) Rebate:**

A) The grant of rebate on storage charges on foodgrains(primary produce) to all farmers (primary producers only) depositing their stocks on Warehouse Receipts, shall continue to be 50% only on basic storage charges provided the depositor has enclosed V.F.no.7/12 in proof of his holding and that the quantity of foodgrains (primary produce) deposit is commensurate with the area of that crop as shown in V.F. no.12 of that year as per the H.O. circular No. MSWC/BD/RESER/REBATE/ 2052 Dt.21/07/2016 should be followed strictly.

B) Other Rebates structure – Considering the size of the business and payments made in advance, the existing rebate structure will continue.

The Manager (Complex) / Deputy Manager (Complex) / Storage Superintendents are requested to go through the revised **Schedule No.60** very carefully and in case of any difficulty in the application of the rates, they may refer the matter to H.O. or Regional Heads for guidance. They are advised to inform their depositors locally about the revision in rates of storage charges coming into force w.e.f. 01/02/2026 and also display the schedule on their notice board.
